SUMMARY

Information Systems graduate with a technical background in backend web development, data processing, and system development. Proficient in Python, PHP, SQL, and MySQL, with experience applying software engineering principles to develop web applications and manage data. Strong analytical, problem-solving, and technical documentation skills, with an interest in system integration, API development, and backend technologies.

EDUCATION

Universitas Islam Negeri Sultan Syarif Kasim Riau (Jul 2022 - June 2026) - Pekanbaru
Bachelor's degree, Information System | GPA 3.88/4.0.

- Activities: ISNC Research, Google Developer Student Clubs
- Relevant Coursework: Software Engineering, Web Programming, Database Systems, System Analysis and Design
- Thesis: Comparative Analysis of Machine Learning Algorithms for Obesity Level Prediction - Repository

EXPERIENCE

Yayasan Daarussalamah - Bangun Jaya, Riau
Operator Assistant Intern (July 2024 - Sept 2024)

- Supported operational activities for the Computer-Based National Assessment (ANBK) process.
- Managed and validated student data in the Ministry of Religious Affairs' EMIS system, including identifying and resolving data issues.
- Developed a web-based information management system using CodeIgniter and MySQL - Repository

BOOTCAMP & PROJECT EXPERIENCE

Coding Camp powered by DBS Foundation (Feb - Jul 2025) - Online
Machine Learning Engineer | GPA 95.6/100.

- Graduated with Distinction (Top 10% in the Learning Path) with a clean record
- Recognized among the top 600 most active students in Instructor-Led Training sessions for tech and soft skills
- Ranked among the top 5 students with the highest engagement in weekly consultation sessions.
- Relevant Coursework: Basic Programming for Software Developers, Programming Logic 101, Basic Git and GitHub, Basic SQL, Fundamental Data Processing, Data Analysis with Python
- Capstone Project: SweetAware - Docs

Daarussalamah Web App (August 2024) – Repository
Software Engineer

- Designed and developed the entire web application using CodeIgniter 3.1.9, PHP 8.1, MySQL, & MVC architecture
- Built a role-based admin panel with three access levels to manage teachers, news, announcements, & galleries, with public pages for visitors.

SweetAware (May 2025) – Docs
Machine Learning Engineer

- Redeployed the full-stack application end-to-end (backend API service and frontend)
- Original capstone: dataset selection and evaluation, EDA, data preprocessing, and conversion of the trained model to TensorFlow.js for browser-side inference.

CERTIFICATION

- Certificate of Completion - Machine Learning Engineer (Coding Camp by DBS Foundation, July 2025)
- EnglishScore Core Skills – CEFR C1/Advanced (British Council, Nov 2024)
- View All Certificates at - Certificates

SKILL

- Programming Languages: Python, PHP
- Backend & Database: CodeIgniter, MySQL, SQL, MVC Architecture
- Tools: Git, GitHub, VS Code
- Soft Skills: Problem-Solving, Analytic Thinking, Communication, Technical Documentation
