SUMMARY

Information Systems graduate with hands-on experience in data analysis, data processing, Python, and SQL. Graduated with Distinction as a Machine Learning Engineer from Coding Camp powered by DBS Foundation, with practical training in data preparation, exploratory data analysis, visualization, and predictive modeling. Skilled in analyzing and transforming data using Python, with foundational experience in Google Sheets. Strong analytical and documentation skills, with a passion for developing data-driven solutions and supporting informed decision-making.

EDUCATION

Universitas Islam Negeri Sultan Syarif Kasim Riau (Jul 2022 - June 2026) - Pekanbaru

Bachelor's degree, Information System | GPA 3.88/4.0.

- Activities: ISNC Research, Google Developer Student Clubs
- Relevant Coursework: Data Analysis, Database Systems, Data Mining, Artificial Intelligence, Machine Learning, Data Analytics, and Software Engineering
- Thesis: Comparative Analysis of Machine Learning Algorithms for Obesity Level Prediction - Repository

EXPERIENCE

Yayasan Daarussalamah - Bangun Jaya, Riau

Operator Assistant Intern (July 2024 - Sept 2024)

- Supported operational activities for the Computer-Based National Assessment (ANBK) process.
- Managed and validated student data in the Ministry of Religious Affairs' EMIS system, including identifying and resolving data issues.
- Developed a web-based information management system using CodeIgniter and MySQL - Repository

BOOTCAMP & PROJECT EXPERIENCE

Coding Camp powered by DBS Foundation (Feb - Jul 2025) - Online

Machine Learning Engineer | GPA 95.6/100.

- Graduated with Distinction (Top 10% in the Learning Path) with a clean record
- Recognized among the top 600 most active students in Instructor-Led Training sessions for tech and soft skills
- Ranked among the top 5 students with the highest engagement in weekly consultation sessions.
- Relevant Coursework: SQL, Data Analysis with Python, Applied Machine Learning, Data Processing, Capstone Project, and Soft Skills Development
- Capstone Project: SweetAware - Repository

Bike Sharing Analysis (March 2025)

Data Analyst

- Conducted end-to-end data analysis using Python on a bike-sharing dataset - Repository
- Built an interactive Streamlit dashboard visualizing rental patterns across key variables - Demo
- Delivered actionable insights translating raw data into decision-ready information

ORGANIZATION

Information System Networking Club (ISNC) Research (Dec 2023 - June 2026)

- Actively contributed to ISNC program community
- Served as Chief of Organizing Committee for "Coaching Clinic Penulisan Tugas Akhir" — guiding students through the thesis writing process, from challenges to effective strategies.

CERTIFICATION

- Certificate of Completion - Machine Learning Engineer (Coding Camp by DBS Foundation, July 2025)
- EnglishScore Core Skills – CEFR C1/Advanced (British Council, Nov 2024)
- View All Certificates at - Certificates

SKILL & LANGUAGE

- Programming Languages: Python, PHP
- Data Analytics: Data Wrangling, EDA, Data Visualization, Machine Learning, SQL
- Tools: Streamlit, GitHub, VS Code, Microsoft Excel, Google Sheets
- Soft skills: Problem-Solving, Analytic Thinking, Communication
- Language: Indonesia & English
